Faculty Search, Biomedical Engineering, Stony Brook University

The Department of Biomedical Engineering is inviting applications for an Assistant, Associate or Full Professor tenure-track faculty position in any BME area, including but not limited to: New Biomedical Imaging Modalities, Gene Editing and Gene Manipulation Techniques, Single-Cell Technologies, Stem Cell Biology, Systems Biology, Cell and Molecular Bioengineering, Tissue Engineering and Regenerative Medicine, Biomechanics, Biomaterials, Bioelectricity, Biosignal Processing, and Bionanotechnology.

Candidates must have a Ph.D. in Biomedical Engineering or a related field and a minimum of 2 years of postdoctoral experience is preferred. Outstanding candidates wishing to be considered at the Associate or Full Professor level should have active, funded research programs in their area of expertise. Candidates are expected to maintain competitive extramurally funded research programs and to excel in teaching at both graduate and undergraduate levels. The Biomedical Engineering Department has close links to the Schools of Medicine and Engineering, Cold Spring Harbor Laboratory and Brookhaven National Laboratory. Please visit our website for more details - http://www.bme.stonybrook.edu.

Qualified individuals are invited to submit a complete application including their CV, statement of research, statement of teaching, and names/addresses of three professional references electronically to: www.stonybrook.edu/jobs. Any questions and inquiries should be directed to: Professor Stefan Judex, PhD, Chair of the Search Committee, Stefan.Judex@stonybrook.edu. Applications shall be received preferably by February 1, 2016, but the position will remain open until filled. Preferred start date: September 1, 2016.
